Proclaimed with especial solemnity by the president of the United States, the governor of North Dakota and the mayor of the capital city, Thanksgiving day today will be observed with more than ordinary regard for the peculiar significance of the first of America's typically national holidays.

The day's program will open with services at St. Mary's pro-cathedral at 9. St. George's will worship at 10, and at 10:30 a community thanksgiving program will be given at the Auditorium. At noon all of the city's excellent hotels and cafes serve special Thanksgiving dinners. In the afternoon the Bismarck theatre offers Mary Pickford in "The Little American," and in the evening there are more dinners.

Both the Orpheum and the Bismarck have special evening attractions, and the Auditorium offers "Fair and Warmer" in a return engagement. One of the big events of the evening is the annual ball of the Bismarck fire department, with music by O'Connor's orchestra.

WHY WE ARE THANKFUL.

"Thanksgiving day brings us so many reasons for being thankful that we need not urge upon every citizen of Bismarck his duty tomorrow of giving some outward expression of that gratitude by joining religiously in the observance of this most typical of American holidays."

"The first Thanksgiving day on American soil was celebrated in a time of stress. There have been other Thanksgiving days which found America absorbed in war; days when the republic was fighting for its very existence. Never has a Thanksgiving day found America involved in a more righteous or holy cause than it is today. No Thanksgiving day has found America more vigorously and successfully defending the cause of democracy and right and justice."

"We should be thankful tomorrow that we are Americans; thankful that America once more has proven true to the trust imposed on her by liberty-loving people the world over; thankful that Americans to a man have stood and are standing back of the president and the administration in this war; thankful that we as a state and as a community have done our share and have the faith and courage to continue to do our share, whether the call be for our blood, our brain or our money."

—Mayor A. W. Lucas.

"Bismarck has abundant reason to be thankful that, though our nation is engaged in the present

Havoc Cost By U-Boat Activities

London, Nov. 28.—Fourteen British merchantmen of 1600 tons and over and seven of less than 1600 tons were sunk by mines or submarines last week, according to the weekly admiralty statement issued this evening. This is an increase of four vessels in the larger category over the number reported sunk in last week's report.

Last week's admiralty report announced the sinking of seventeen British merchant vessels—ten of more than 1600 tons and 7 of less tonnage. The week previously only one craft of 1600 tons and over and five of less tonnage were sent to the bottom.

London, Nov. 28.—The admiralty statement follows:

Arrivals, 2,058; sailings, 2,122

British merchantmen over 1600 tons sunk by mine or submarine, including one previously, 14; under 1600 tons, 7.

Fishing vessels sunk, none.

All railroad equipment was also being seized to load other troops to follow the Favela train, reducing the garrison here to less than 1,000 men.

The military censorship continued here today, and no information was given out at military headquarters regarding developments south of the border.

CIRCOLI STUDI ARRESTS SHOW WIDE PLOTTING

Seventy Men Under Arrest in Northwest as Result of Federal Raids

EASTERN BRANCHES OF ANARCHISTS GUILD

Conspirators in Various Parts of Country Traced and Much Information Gained

Seattle, Wash., Nov. 28.—Commissioner of Immigration Henry M. White is confident that the leaders of the Circoli Studi Saciali, a society of Italian anarchists alleged to have plotted the assassination of the king of Italy and bloody disturbances in this country, are now in custody. Approximately 70 men are under arrest here and in other northwest cities as a result of the recent raids.

Other Arrests

Additional arrests are expected, however, and a number of federal agents are now conducting investigations at various points in Washington and Oregon.

The chief activities of the organization in the Pacific northwest have been added by the wholesale arrests. Those now in custody are held on deportation warrants from Washington, and those who are not American citizens and who are shown to have been members of the anarchistic society will be sent back to Italy, where they can be dealt with by the Italian government.

Suspects Closely Examined

Mr. White expects that a number of men under arrest will be able to establish their innocence, and those doing so will be immediately released. Examination of the 55 men held here began today and will be continued until all have been heard. The suspects are being closely cross-examined.

Federal officials reported to have evidence showing that at one meeting of anarchists volunteers for the assassination of the king of Italy were called for.

Plot Against Foods

It was also disclosed today that the society had plotted to seize supplies of foodstuffs at strategic points in the United States. The society's principal aim, however, is said to have been the weakening of the morale of the

KANSAS APPEALS FOR MILITARY TO GUARD PROPERTY

Governor Capper Says Eight Hundred Men are Needed to Watch Over State

MANY CITIES CALL FOR SAFEGUARDING

Topeka, Kan., Nov. 28.—Eight hundred federal troops are needed in Kansas to guard private and public property, according to a telegram sent by Governor Capper tonight to Major-General W. H. Carter, commanding the central department at Chicago. The governor named the places where troops are needed, and recommended the number of soldiers to be sent to each place. His telegram was sent in compliance with a suggestion made by Secretary of War Baker and a request from Major General Carter, received today.

Governor Capper requested that one hundred soldiers be sent to Kansas City and fifty each to the following towns and cities: Wichita, Eldorado, Augusta, Towanda, Coffeyville, Caney, Neosho, Humboldt, Shattuck, Arkansas City, Topeka, Hutchinson and Salina. Many of the towns named are in the southeastern Kansas oil fields, where federal agents recently conducted a "roundup" of alleged I. W. W. agitators.

The soldiers to be sent to Kansas City are needed, Governor Capper said, to guard parking houses, stock yards, elevators, mills and bridges spanning the Kansas river.

Thankful, But Not For War

Washington, Nov. 28.—Thanksgiving messages from members of the cabinet addressed to the people of the country and the country's defenders on land and sea will appear in tomorrow's official bulletin.

Secretary Lane says he cannot be thankful for war, the methods of war, nor the turning of man's minds from things constructive to things destructive, but that he gives "thanks that this is a nation unshaken, that the spirit of Bunker Hill and Santiago is still quick and aggressive," and that "men are willing to die that liberty and justice may live."

CAMBRAI REGION STILL SCENE OF COARY FIGHTING

Heavy Struggle for Advantage Keeps On, the British Gaining Stubbornly

LINES STILL HOLD IN THE NORTH OF ITALY

Infantry Battles of First Magnitude Keep the French Front Watchful

(By Associated Press)

British Headquarters in France, Nov. 28.—Fontaine Notre Dame was today virtually no man's land, over which swirled a never ending deluge of machine gun bullets from the ranks of the opposing forces drawn up on either side of this blood drenched little hamlet. A bright warm sun shining down from an almost cloudless sky but it brought little cheer to the battle weary German and British troops, for it only served to throw into bold relief the awful picture of desolation and carnage within the confines of this village, through which all day yesterday grim death had stalked among the warriors.

It is probable that some parties of Germans were still clinging to their secret strongholds among the ruined buildings and that British guardsmen were hidden among the cellars at various points. But for the most part Fontaine Notre Dame was a place of dead, they lay about the streets to tell the story of the cruel tragedy enacted about them.

German prisoners from the third guards division and forty sixth regiment were in the British cages this morning as a result of the battle and among the captives was a battalion commander, who was caught with many of his men in the rush of the British through the village. In addition to the five hundred taken yesterday, about Bourlon village, where English troops, cooperating with tanks, made some advance.

Tanks were also employed in the assault on Fontaine and it was behind these great engines that the British guards battled forward until they had reached the eastern side of the village.

SUNDAY FOR CONFERENCE

Sunday next has been set by the Germans as the date for a conference with the Bolshevik leaders, for the purpose of negotiating an armistice. The arrangement for the discussion followed a visit of representatives of the Bolsheviks to the German military authorities on the Teuton side of the fighting front in Russia. The Germans apparently gave quick acquiescence to the proposal of the Russians for an armistice looking to an ultimate peace, for only a few hours intervened between the visit of the Russians to the German line and acceptance by the Germans of the proposition that was made to them.

While the negotiations are expected.

MRS. DE SAULLES AT MURDER TRIAL AND MONTHS AGO WHEN SHE WAS HAPPY

Experts and Maid Confirm Narrative of the Tragedy Recited by Neglected Wife

CRAWFORD STILL HEADS REGENTS, ASSERTS LANCER

Attorney General Hands Down Opinion Holding Recent Reorganization Illegal

RULING SETBACK TO HOPES OF GOVERNOR

Lewis F. Crawford of Sentinel Butte is still president of the North Dakota board of regents, despite an election held by the Frazier regents at the last meeting of the board, when they named Robert Muir of Slesles to this office.

Attorney General William S. Langer, who to date has fought all the governor's battle for control of this board, so advised J. W. Wilkinson, secretary of the state university, in an opinion handed down Wednesday.

Secretary Wilkinson had written the attorney general requesting an opinion on the grounds that important documents awaited the signature of the president of the board and that Dean Walcott desired to know which of the contestants might be considered the legal president.

"Immediately upon receipt of your letter I examined the minutes of the state board of regents from October 30 to November 2 inclusive, and from the record as shown in the office of the secretary of the state board of regents it is my opinion that the rules and regulations adopted by the former board of regents for its official procedure were not received by the present board, and that the former board should be elected for a period of one year. Investigation shows further that although an attempt was made to elect Hon. Robert T. Muir president, yet the said election was of no force and effect because it was in conflict with the rule established by the former board of regents, and consequently the action was illegal. Consequently Lewis F. Crawford continues as president of the board of regents and he is the proper person to sign the vouchers as president of the state board of regents," says Langer in his opinion.

Langer's statement seems to indicate that he outlined a mode of procedure to be used by the Frazier regents in deposing Hanna and that in their haste to seize control of the board they "balled things up."

Disease of Thyroids Frequently Mentioned as Relating to Mental Balance

DRAMA OF THE COURT WILL SOON BE OVER

Maid Who Accompanied Defendant on Her Trip to "The Box" Cross-Examined

Mineola, N. Y., Nov. 28.—Taking of testimony in the trial of Mrs. Blanche De Saulles on a charge of murdering her divorced husband, John L. De Saulles, neared an end in supreme court here today.

Dr. Smith Ely Eliff, an alienist, and Dr. Louis C. Johnson, a "Physiological chemist," told from the witness stand of diagnoses which they made of Mrs. De Saulles' condition shortly after the tragedy on the night of August 3 at "The Box," De Saulles' Long Island home. Their evidence tended to support the Chilean woman's claim that she was not accountable for her actions when she fired the revolver shots which killed her former husband.

Expert Testimony

"Hypothyroidism," the disease of thyroid gland which her attorney maintained affected the defendant at the time of the shooting, was frequently mentioned by the experts. Incidental to their examination, an x-ray photograph "burproring" to show that Mrs. De Saulles also was suffering from brain pressure resulting from a fractured skull was introduced in evidence. Miss Suzanne Monteanu, Mrs. De Saulles' maid, who accompanied her on the automobile ride from her home to that of her former husband just before the shooting occurred, was the only other witness examined today whose testimony is regarded as having an important bearing on the case.

There were discrepancies in the maid's answers today when compared with those she gave in a deposition taken by counsel for the prosecution and defense shortly after August 3. This deposition was read to the jury by the attorney Charles R. Weeks pointed out material differences in the two accounts of the scene in De Saulles' living room when the shots were fired, but on three points she was in agreement with Miss Monteanu.

Story of the Maid

Mrs. De Saulles told me to go with her, that it was going over in "The Box," to get a new dress, the maid said in response to her mistress' purpose in making the trip.

The prosecution claims Mrs. De Saulles went to her divorced husband's home intending to shoot him. But Mrs. De Saulles told you just after the shooting that she was glad she did it and that she hoped he died, Attorney Weeks asked.

"That is not so," Miss Monteanu emphatically replied.

The third point on which the maid's testimony remained firm was her declaration that Mrs. De Saulles said, on entering "The Box" that she had come to take her boy home with her. As to the manner in which Mrs. De

ALLIED POWERS KEEP WATCHFUL EYE ON RUSSIA

Cecil Refers to Address for Russian Guidance Against Serious Results

NO FORMAL REFERENCE TO PART OF POWERS

United States Marks Time and Awaits Official Announcement of Negotiations

London, Nov. 28.—The second edition of the Daily Mail today contains an apparently mutilated telegram from Petrograd dated four o'clock on Wednesday, indicating there has been a renewal of trouble there. It says there has been some firing and that several persons have been wounded.

REPLY TO TROTZKY

Petrograd, Tuesday, Nov. 27.—The diplomatic representatives of the neutral countries, after a conference, decided to reply to Leon Trotsky's notification respecting an armistice as a matter of courtesy, as they would reply to the representations of a private individual. They affirm, however, that action must not be taken as recognition.

WARNING AND GUIDANCE

London, Nov. 28.—"It is under consideration to issue, in conjunction with our allies, a reasonable statement for the guidance and warning of the Russians as to the serious results that are likely to follow if a separate peace is concluded," said Lord Robert Cecil, minister of blockade, in the house of commons today.

Lord Robert Cecil, in his weekly talk with the Associated Press last Friday, said the armistice proclamation by Nikolai Lemme, if it represented the real opinion of the Russian people, which he did not believe it did, would be a direct breach of treaty obligations and of Russia's alliance.

"Such an action," Lord Roberts said, "if approved and ratified by the Russian nation, would put them virtually outside the pale of civilized Europe."

NOTHING TO REPORT

Washington, Nov. 28.—There will be no formal announcement from the present of the attitude of the United States and the allied nations toward the Bolshevik regime at Petrograd. The American government is waiting both for official information about the relations of the Bolshevik leaders with German army officers, and for further development in the tangled situation throughout Russia.

In the meantime the only official expression has been made in a statement to the Russian general staff by Lieut. Col. Judson, head of the American military mission, giving warning that the logical outcome of the movement for an armistice and peace will be the cutting off of American supplies.

This statement was made without instructions from Washington, but officials said today it "summarized the situation accurately."

Steps already have been taken to forestall the possibility of any part of the vast stores of supplies bought in this country for Russia falling into enemy hands. Some ships are on the way, but they can be diverted by wireless at any time.

GOVERNOR SIDE STEPS UNIVERSAL TRAINING QUIZ

Frazier Not Yet Ready to Commit Himself on Question of Service for Everyone

Governor Lynn J. Frazier this morning advised George M. Abbott, field secretary for the universal military training league, that he is not yet prepared to commit himself to universal military training.

Secretary Abbott, who is here on one of his periodical field trips, also called upon Chief Justice Andrew A. Bruce, who stated his stand in the following words:

"If a nation has a right to exist it has a right to defend itself from attack from other nations. A republic can be defended successfully only by its citizens—by all its citizens. Universal military training is the only democratic method of preparing a republic to defend itself. I also believe it will be of immense benefit physically, mentally and morally to the young men of our country. I hope that the urgency of the present situation of the nation will result in such legislation as will introduce the general plan and without undue delay."

MACDONALD ASSISTS IN DEDICATING SOUTH DAKOTA MODEL SCHOOL

N. C. Macdonald, state superintendent of public instruction, has returned from Madison, S. D., where he was the principal speaker at the dedication of a new model school for the South Dakota state normal. Mr. Macdonald spoke on consolidation as the future of the rural school, tracing North Dakota's successful experience. The new model school is of a modern type embracing a number of progressive ideas and including models of rural and city schools under one roof and all on the same floor. It is of particular interest to North Dakotans from the fact that Miss Candis Nelson, for six years in the department of education at the Valley City normal, is to be in charge. South Dakota is now preparing to take up a series of rural school rallies similar to those recently conducted in North Dakota.

FARMERS URGED TO HOLD SEED GRAIN

Shortage Feared by Commissioner of Agriculture—Committees May Issue Bonds

With the co-operation of the pure seed commission, the North Dakota State Bankers' association and Commissioner of Agriculture and Labor Hagan, counties which find themselves in need of seed grain will be encouraged to issue seed bonds or warrants through their county commissions, where this course is found necessary. "The seed commission stands ready to assist in the selection of seed and in finding where it can be bought," said Commissioner John N. Hagan today. "The commission finds after making a careful survey that a shortage of barley, oats, flax and corn seed exists, and it recommends that farmers having any of these grains retain them for seed purposes, and that farmers having supplies in excess of their own needs notify the commissioner of agriculture or the agricultural college. "The farmer probably will realize a somewhat higher price for this seed grain than he would get in the open market, and the buyer will be saved transportation charges two ways and probably a commission or two. It is certain there will not be sufficient seed grain in the state in any event. We will be compelled to go out of the state for much of it, but every bushel that can be bought inside the state will mean a saving in money and a greater certainty of crop."

"DON'T LOOK SIFT HORSE IN MOUTH" HAS COURT'S O. K.

Supreme Bench Rules Fargo Not Liable for Injury Sustained in Enjoying Gratuity

"It is a wise and sound axiom which forbids looking a gift horse in the mouth," says Justice James E. Robinson, in writing an opinion for the supreme court of North Dakota reversing Judge A. T. Cole of the Cass county district court, who awarded Dan Moulton damages against the city of Fargo for injuries which Moulton sustained when the Fargo dumping grounds burst into flames while he was unloading some debris there. The supreme court reverses the lower tribunal and dismisses the action on the ground that the acceptance of the gratuitous service offered by the city of Fargo in supplying a public dumping ground deprived the acceptor of any legal claim against the city. The supreme court also handed down an opinion this morning affirming the Williams county district court's conviction of C. D. Wheeler, on a charge of bootlegging. Wheeler got ninety days and appealed.

CAMP COOKS OVERWORK IN PREPARING FEAST

(By Associated Press)

With the American Army in France, Tuesday, Nov. 27—Army cooks today began to prepare what probably will be the best dinner ever served for an army on foreign soil. In every little village in France, where American troops are stationed the company cooks began making cranberry sauce and laying out great piles of turkeys, sweet potatoes and everything else that goes to make up a real Thanksgiving dinner. There is not an American soldier who will be unable to eat to his full capacity, except a few just arrived and some officers who are unlucky enough to be stationed in one of the worst places and living in hotels. As many of these as possible have been invited to messes.

Even the wood cutting camps lost in the forest of France have had a share sent to them.

PORK \$7. HIGHER TODAY THAN IN CIVIL WAR TIMES

Maximum Price in History Reached for Barrelled Goods on Chicago Market

Chicago, Nov. 28.—Pork available for immediate delivery commanded \$7.00 a barrel today, the highest price on record. The topmost figures during Civil War days when gold was at a big premium was \$4.00. Today's sales of pork showed that the commodity had risen \$2.50 per barrel in the last fortnight. Huge purchases of packing house products for the government was the chief reason ascribed for the rise.

A TALK WITH A BISMARCK MAN

Geo. G. Newman of Ninth St. and Broadway Tells His Experience.

There is nothing like a talk with one of our own citizens for giving hope and encouragement to the anxious sufferer from the dread kidney disease. We, therefore, give here an interview with a Bismarck man:

"I was subject to attacks of lumbago," says Mr. Newman. "My back was often so lame, stiff and painful. I couldn't turn in bed. I had dizzy spells and headaches, too. The kidney secretions were highly colored, contained a brickdustlike sediment and were too frequent in passage. After using three boxes of Doan's Kidney Pills, all signs of kidney trouble had disappeared."

MORE THAN TWO YEARS LATER, Mr. Newman said: "I still think well of Doan's Kidney Pills and am glad to confirm my former endorsement. They did me such a lot of good that I seldom need them now." Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Newman had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

This flag was bought by the Soo Line and was offered in competition to the superintendent making the best showing on the sale of the second allotment of Liberty Bonds.

As was natural, "Scotty," as he is more familiarly known to the bustling men of Bismarck and every town along the Missouri river division, stepped out to bring the flag to Bismarck and his division, and when the

Safeguards Health of The Children

Constipation, or inaction of the bowels, is a great menace to health. Cathartic or purgative remedies should never be given to children as the violence of their action tends to upset the entire digestive system. A mild laxative is far preferable, and the combination of simple laxative herbs with pepsin known as Dr. Caldwell's Syrup Pepsin, and sold in drug stores for fifty cents a bottle, is highly recommended. Preparation contains no opiate, narcotic, or habit-forming drug of any description, is mild and gentle in its action, and brings relief in an easy, natural manner. Its pleasant taste appeals to children and they take it readily.

Thousands of mothers have testified to the merit of Dr. Caldwell's Syrup Pepsin, and in countless homes it is the standard family remedy. A trial bottle, free of charge, can be obtained by writing to Dr. W. B. Caldwell, 438 Washington St., Monticello, Minn.

Conspiracy Widespread
The defendants are Louis Galleano, proprietor of a small newspaper called the *Chronicle*, and John Frazzetta and Carlo Vandonico. They are out on substantial bail. The case was to have been tried in October, but a few days before the date set the trial was postponed on the grounds that the government has obtained additional important information. Federal agents said tonight that the evidence included alleged conspirators in various parts of the country, whose movements have been traced. Much of the information was obtained, it was said,

But Turks in force have been gathered out the city and it is not improbable that a great battle will have to be fought for its possession. To meet the emergency the British are hurriedly bringing additional men, guns and supplies.

Twenty-one British merchantmen were sunk by mines or submarine last week—four more, in the aggregate, than were sent to the bottom the previous week.

PROSPECTS GOOD FOR BUSY ATHLETIC SEASON AMONGST M'LEAN COUNTY'S SCHOOLS

Washburn, N. D., Nov. 27.—While the war as in everything else has taken out some of the best material the prospects for a busy winter and spring in athletics among the high schools in McLean county are bright. Also the consolidated schools are tending to the front in this respect and it will be a toss-up whether the schools in the country or those in the

city will carry off most of the honors. At a meeting of principals held in Washburn it was tentatively agreed that a basketball league be formed comprising Washburn, Wilton, Garrison and Cole Harbor. Now it develops that Garrison cannot hope to get a good enough game to compete with the other schools this winter because the boys are new at the game, and so the prospects of a league among the boys have gone glimmering. But it is hoped to arrange individual contests among Washburn, Cole Harbor and Wilton and Washburn also has asked to play on a date with Bismarck. The Bismarck high school, however, has failed to respond to the invitation.

Cole Harbor Starts Early

Cole Harbor has an early start on the other schools in basketball activities. Five teams have been practicing for some weeks, according to Principal Glover, and with some outside conflicts already pulled off to Cole Harbor's advantage, it looks as though Cole Harbor had the best of the argument in the county. But it will find a formidable opponent in the Washburn aggregation, which has three of its seasoned players still in the running. The Washburn high school has finished the remodeling of its gymnasium and practice is expected to be on in earnest this week. There is plenty of material for six basketball teams at the school, including the girls. In fact, it looks as though the girls will take the lead in winter athletic activities in McLean county. Nearly every big school in the county has girls' teams, and they are putting up an excellent article of basketball. In a boys' league seems unlikely, there is some chance that a girls' league may be organized. Some of the girls of the farm are as expert in throwing "baskets" as they are in pitching hay.

Girls Make Showing.
An inkling of the situation may be gleaned from Principal Tollefson of the Garrison school, who writes that a boy's team this winter seems unlikely for match games, but asks eagerly, "We would like to know what you have along the line of a girls' team?" Our girls may do better than our boys.

Annual Field Contest.

Preliminary arrangements have been made for the field contest next spring. It has been decided by the principals that Underwood be the permanent

place of meeting every year, in order that permanent improvements to that end be made in that town. This involves, among other things, the closing in of the track so that spectators do not impede the efforts of the runners as has been the case in previous years.

Tentative Date Set.

June 21 has been set as a tentative date for holding the meet at Underwood. This will be the fifth annual field day in the county. The first two years Wilton had no trouble in carrying off the highest honors, but for the past two years Washburn has captured the silver trophy. Washburn has lost three of its best track men but it still has some of the winners and they expect to take permanent possession of the trophy next spring. The other schools, however, avow that such will not be the case and they are already laying dead plans to shut Washburn out. Only Wilton, Garrison, Wilton, Cole Harbor and Underwood are in the running, but at a Bismarck, N. D., Nov. 27.—While the war as in everything else has taken out some of the best material the prospects for a busy winter and spring in athletics among the high schools in McLean county are bright. Also the consolidated schools are tending to the front in this respect and it will be a toss-up whether the schools in the country or those in the

An executive committee, headed by County Superintendent McCurdy, has been selected to make arrangements for the contest and also draft the eligibility rules. It already has been determined, however, that participants must show an excellent school attendance record and that they must not wear spiked shoes but tennis shoes.

HAROLD BACHMAN SAYS REPORTS OF DEATH UNTRUE

Popular Leader of Second Regiment Band, now 116th Engineers, Denies Stories

BEN CLOUD, BISMARCK INDIAN, TO BE OFFICER

Life Bill Nye, Mark Twain, Col. Charles F. Smith and other notable Bismarckians have suffered from malicious and exaggerated reports of their death which he has been forced to brand as premature, to say the least.

Rumors so wild and so unreasonable and illogical that The Tribune had not deemed it dignified to mention them. They have been repeated for weeks. They have concerned the Bismarckian of Harold Bachman, popular leader of the former Second Regiment band, now the 116th engineers and division headquarters band at Camp Mills. Things have reached such a state, however, that friends of Bachman have asked that The Tribune advise its readers that Harold Bachman is not dead; that he never has been dead or involved in any kind of any kind; that he is still living and his excellent band and is very much alive and just as popular at Camp Mills as he was at Camp Greene and before that at Bismarck and at Harve, the home town of the 116th engineers' band.

Ben Cloud an Officer.

Word comes from Camp Mills that Ben Cloud, veteran of Co. A, First regiment, and one of Bismarck's most efficient young military men, is scheduled for a commission. He has been serving as regimental sergeant major and it is probable that when he goes up Sergeant Major or Walter H. Hecker of Mandan will get his present berth. Cloud is an Indian and a good one, and his commission will please many Bismarck friends.

Other Assignments.

The 28 recently commissioned officers of the old Fighting First have been assigned to berths in the 16th Infantry at Camp Mills as follows:

All Choked Up With Catarrh? Why Continue Makeshift Treatment?

Urges and Cures will never cure you. Catarrh is annoying enough when it chokes up your nostrils and air passages, causing painful and difficult breathing and other discomforts. But the real danger comes when it reaches down into your lungs. This is why you should at once realize the importance of the proper treatment and lose no time experimenting with worthless remedies which touch only the surface. To be cured of Catarrh, you must drive the germs out of your blood. Splendid results have been reported from the use of S. S. S., which completely routs from your blood the Catarrh germs, for which it is a perfect antidote. S. S. S. is sold by all druggists. If you wish medical advice as to the treatment of your own individual case, write to-day to Chief Medical Adviser, Swift Specific Co., Dept. B, Atlanta, Ga.

"FAIR AND WARMER"

Avery Hopwood, master of farce, ran his own record up with "FAIR AND WARMER" the bubbling, hilarious farce, which SELWYN & COMPANY will present at the

AUDITORIUM

TO-NIGHT TO-NIGHT

CURTAIN AT 8 15

Mr. Hopwood's admirers, dating from "Seven Days" and "Nobody's Widow," two great successes of former seasons, found in his latest work the same sparkle of line and cleverness of characterization which had graced the others, with an added ludicrousness of situations. The score built around the ineffectual making of a cocktail puts its audience practically into hysterics. The long New York run of the piece with its thousands of out-of-town visitors and its subsequent record of unparalleled success wherever it has been seen, spread the fame of "Fair and Warmer" all over the country and created a vigorous demand for it. Selwyn & Company sent it here with an excellent company of farceurs.

SPECIAL TERM FEDERAL COURT HOLDS INTEREST

Jim Jams Jems Case and Trial of
Kate Richards O'Hare Pro-
mise Excitement

**SOCIALIST LECTURER
CALLED WOMEN NAMES**

Said Mothers who Gave Boys to
be Soldiers were no Better
than Brood Animals

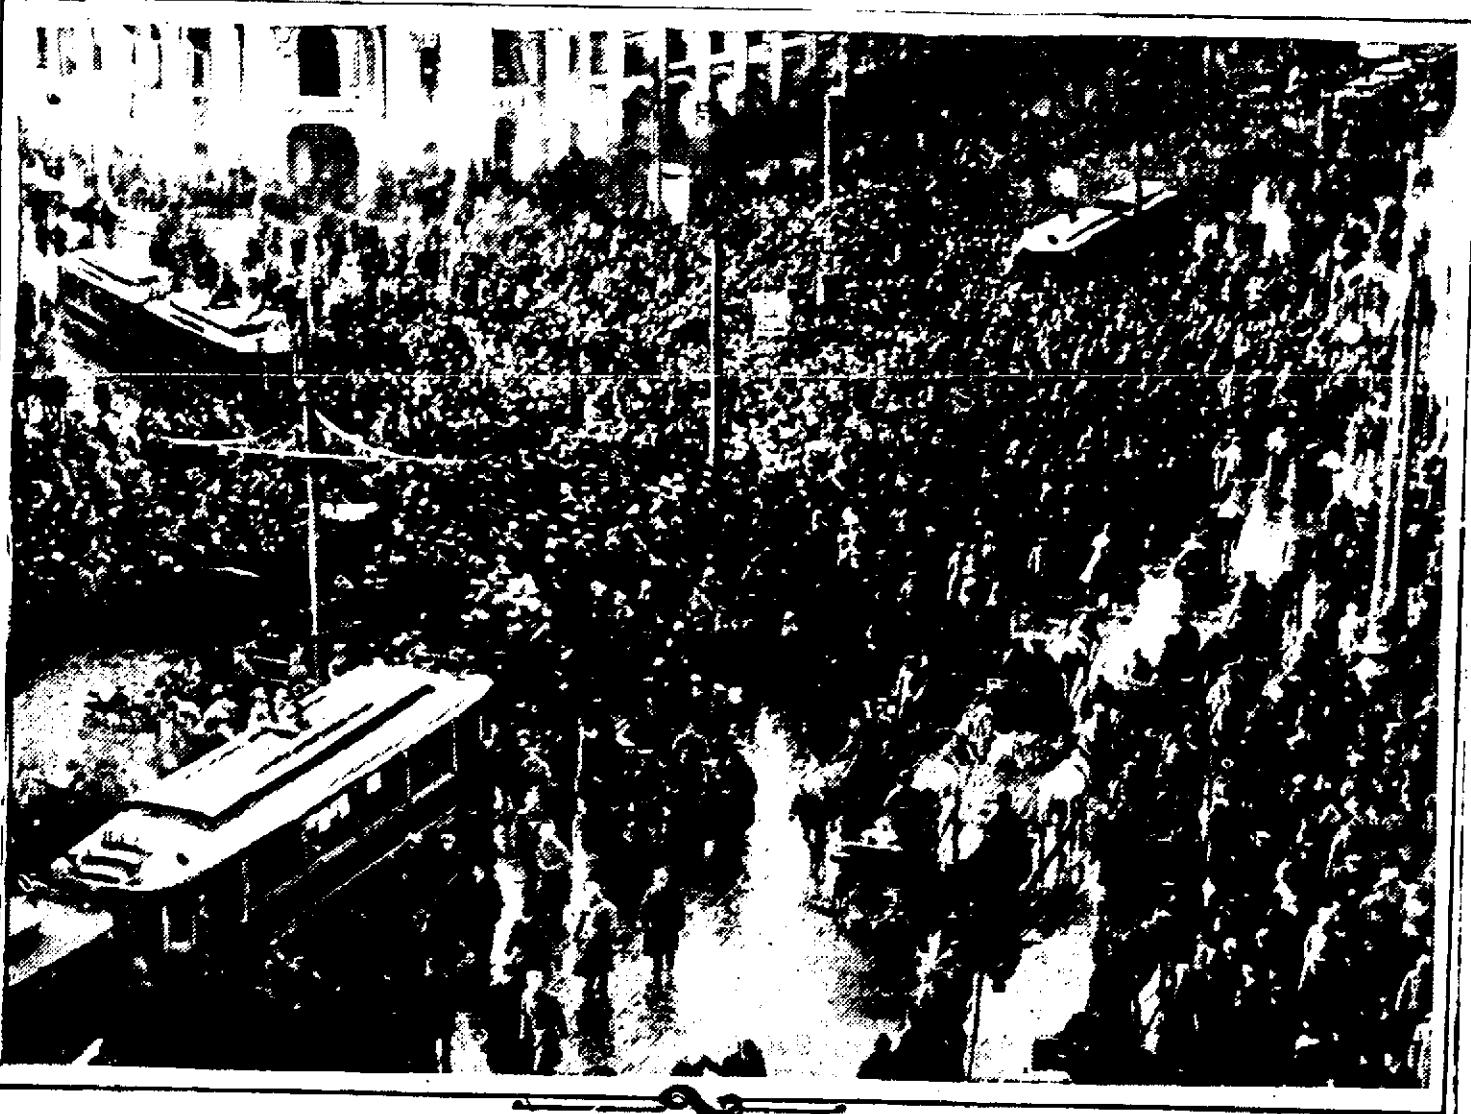

In point of popular interest, the special term of federal court which will be convened here December 3 promises to be the most important held in several years. In addition to the famous Jim Jams Jems case, in which Sam Clark and Clarence H. Crookard, publishers of this well known monthly periodical are the defendants, there will come up the case of Kate Richards O'Hare, socialist lecturer, arrested during a recent tour of North Dakota on the charge of making seditious utterances at Lowman.

Judge B. T. Wade of the Iowa district court will preside in place of Judge Charles F. Auldson, who will be occupied with duties in the United States circuit court of appeals.

Little is known of the precise charges against the publishers of Jim Jams Jems, accused of the misuse of the United States mails, but it is generally understood that a criticism of "His Bridal Night," a musical comedy which recently toured the northwest, is in some way involved in the issue. In "His Bridal Night," a man about town marries one of two sisters, and complications result.

Kate Richards O'Hare during her lecture engagement at Lowman where she was entertained by Lillian Totten, United States postmistress at that town, wife of Judge F. H. Totten and a

THE RULERS OF RUSSIA IN EXECUTIVE SESSION

SENATE COMMITTEE MEETS TO CONSIDER LAFOLLETTE'S CASE

Washington, Nov. 28.—The senate privileges and elections committee which is investigating the alleged disloyal speech made by Senator La Follette at St. Paul will meet next Monday to discuss plans for further hearings.

Chairman Pomeroy had a conference today with President Wilson. Afterward he denied reports that no further hearings would be held, but declined to discuss the committee's plans.

Belief is generally around the capitol that the investigation will terminate after former Secretary Bryan appears to answer statements made by the Wisconsin senator.

Aberdeen, S. D., Nov. 28.—Friends are seeking for Miss Edna Reideman, 23-year-old schoolma'am, a Carnegie medal in reward for the heroism she displayed during a recent prairie fire at McIntosh when she gathered her flock into the small frame school building, where they remained sheltered as the prairie fire swept past and then led them to safety, just as the roof of the building, which had been ignited by flying sparks, caved in. The school building was completely destroyed, but Miss Reideman and her tots walked out on the charred prairie in the wake of the fire unharmed.

REDFIELD AGREES TO KEEP INLAND SEAS OPEN LATE

Light House Commission Issues
Orders to Maintain Safe-
guards To Last Moment

William C. Redfield, secretary of commerce, assures the Bismarck Commercial club that as a means of relieving the fuel shortage in the northwest navigation on the Great Lakes will be continued to the latest possible moment. Secretary G. N. Kenison of the Bismarck Commercial club, in response to a suggestion from Capt. I. P. Baker, federal fuel administrator for North Dakota, wired Secretary Redfield.

"The demand for eastern coal in North Dakota makes it imperative that navigation on the great lakes continue. It means \$2.31 per ton to the consumer. The shortage is now extreme and more suffering to the people and serious retrenchment to manufacture and trade would follow an early suspension of navigation."

Secretary Redfield says: "I take pleasure in stating that the commissioner of lighthouses has given instructions that aids to navigation remain in place as late as possible this season in order to permit the fullest possible movement of ore, grain and coal."

TO MAKE IT HOT FOR EM Troubles of High Line Passengers are Things of Past

Valley City, N. D., Nov. 28.—Good news for Valley City people and guests is contained in a message received from the Northern Pacific R. R. Co. of the North Dakota railroad which advises that E. C. Harrington, superintendent of the Northern Pacific at Valley City, Minn., has promised to make a list for patrons of the company waiting for trains at the "high line" station. The high line waiting room, a mile from Valley City, has long been a source of contention, but the Northern Pacific has at last agreed to the last demand of the traveling public.

CURED HIS RUPTURE

I was badly ruptured while lifting a trunk several years ago. Doctors said my only hope of cure was an operation. Trusses did me no good. Finally I got hold of something that quickly and completely cured me. Years have passed and the rupture has never returned, although I am doing hard work as a carpenter. There was no operation, no lost time, no trouble. I have nothing to sell, but will give full information about how you may find a complete cure without operation. If you write to me, Eugene M. Pullen, Carpenter, 308 D. Marcellus Avenue, Manassas, N. J. Better cut out this notice and show it to any others who are ruptured—you may save a life or at least stop the misery of rupture and the worry and danger of an operation.

A Stubborn Cough Loosens Right Up

This home-made remedy is a wonder for quick results. Easily and cheaply made.

The prompt and positive action of this simple, inexpensive home-made remedy in quickly healing the inflamed or swollen membranes of the throat, chest or bronchial tubes and breaking up tight coughs, has caused it to be used in more homes than any other cough remedy. Under its healing, soothing influence, chest soreness goes, phlegm loosens, breathing becomes easier, tickling in throat stops and you get a good night's peaceful sleep. The usual throat and chest colds are conquered by it in 24 hours or less. Nothing better for bronchitis, hoarseness, croup, whooping cough, bronchial asthma or winter coughs.

To make this splendid cough syrup, pour 2 1/2 ounces of Pinex (500 cents worth) into a pint bottle and fill the bottle with plain granulated sugar syrup and shake thoroughly. You then have a full pint—a family supply—of a much better cough syrup than you could buy ready-made for \$2.50. Keeps perfectly and children love its pleasant taste.

Pinex is a special and highly concentrated compound of genuine Norwegian pine extract, and is known the world over for its promptness, ease and certainty in overcoming stubborn coughs and chest colds.
